Congratulations on your purchase of the Digital Juice Master Slyder & Trolley Dolly. Created specifically for those who want top-end performance at a groundbreaking price, the ultra-smooth and noticeably quiet Digital Juice MASTER SLYDER, available in both 42-inch and 66-inch versions, is the ultimate choice in professional slyders. The larger form factor and wider base of this professional linear tracking dolly can handle everything from small DSLR cameras up to large broadcast and cinema cameras like the CineAlta and RED ONE, while the custom extruded aluminum C-channel body and innovative removable Trolley Dolly deliver consistently smooth and quiet tracking shots each and every time.

Check to see that the following components are included in the packaging that the Master Slyder & Trolley Dolly is shipped in:

- a) Master Slyder 42” OR 66” Length C-Channel Body (1)
- b) Master Slyder Removable Trolley Dolly (2)
- c) Master Slyder Deluxe Carry Bag (3)
- d) Master Slyder Trolley Dolly Deluxe Carry Bag (4)
- e) Slyder Power Unit Adapter for Master Slyder (5)
- f) ¼”-20 & 3/8” Camera Mounting Screws plus Allen/Hex Wrenches (6)
The generous 5 1/8” x 6" camera mounting plate (7) on the Master Slyder trolley features eleven ¼”-20 and three 3/8”- threaded mounting holes, along with one 3/8”- through-hole, so that you can mount your camera directly (8) or use a high hat kit and fluid head (9) along with accessories such as an articulating arm or LCD monitor if needed.

A braking system allows the user to slow the trolley down with precise pressure adjustment during angled shots, and also to lock the trolley in place for static shots or when the camera is not in use. Turn the brake knob (10) clockwise to tighten the brake, or counter-clockwise to release the brake to the desired pressure.

Cutouts on the bottom of the Master Slyder body reduce its weight, while providing better access to its mounting options. Both ¼”-20 and 3/8”-16 threaded mounting holes are included on each cross-member (11) for easy mounting to a pair of tripods or C-stands. Optional accessory C-stand Adapters (12) offer a variety of horizontal and angled mounting options so you can achieve some unique perspectives with your shots.
Using the Master Slyder & Trolley Dolly (continued)

The silver anodized aluminum end caps include neoprene bumper pads that are designed to gently stop and cushion the trolley when it reaches the end of its track. These removable end caps also allow quick access to the removable camera trolley for storage, transport and standalone use. The innovative removable Trolley Dolly can be stored and transported in its own deluxe carry bag (13) or it can be used independently as a portable tabletop dolly on any smooth flat surface (14). Simply remove one of the end caps by removing the single thumb screw at the base (15), release the brake on the trolley, and slide it out from the body (16). Then you can either direct-attach your camera using the included ¼”-20 or 3/8”- mounting screws (17), or you can attach your camera using an optional high hat accessory kit and your favorite fluid head for more creative shooting options.
Attaching the Slyder Motor Drive to Your Master Slyder

To attach the Slyder Power Unit’s motor drive to your Master Slyder you will first need to attach the provided Slyder Power Unit Adapter (5) to the motor drive unit. To do this, line the adapter’s holes up with the two mounting holes on the drive unit as shown below (18), and then secure the adapter to the motor drive using the two provided thumb screws (19). Next simply line up the two mounting holes on the adapter with those on the top of your Master Slyder’s trolley plate and secure it in place with the Slyder Power Unit’s ¼”-20 mounting knobs (20). Then, simply connect the motor drive to its power control unit with the included cable and you are ready to start shooting (21).

NOTE:
Remember to release the brake on your Master Slyder trolley (22) before turning on the Slyder Power Unit and starting to use it.
Your new Master Slyder was specifically designed to be rugged and ready-to-go, requiring minimal maintenance for proper and smooth performance. The anodized body provides a long-lasting finish that is attractive, stylish and easy to clean.

- Before setting your Master Slyder up at an angle, it is best to move the camera-attached trolley to the fixed end of the Master Slyder and then secure the brake. This will help avoid damaging the camera when you raise the opposite end of the Master Slyder to the desired angle.
- Be careful when setting up an unbalanced camera. Cameras with heavy lenses or matte boxes may cause your camera setup to have a front weight bias. Similarly, a camera with a large battery source would have a rear weight bias.
- Do not use solvents or harsh cleaners of any kind on the Master Slyder components. Clean rails with a damp or dry clean cloth to wipe off any dust or debris that might have accumulated. If the rails are particularly dirty, you may use a non-harsh/non-abrasive cleaner, making sure to wipe all excess cleaner off of the rails to ensure continued smooth movement of the trolley.
- For increased protection, along with safe transport and storage, we recommend you always use the provided custom fit deluxe carry bags for your new Master Slyder and Trolley Dolly.
- Avoid direct exposure to rain, water or sand as this could interfere with the smooth operation of the unit.

Unless otherwise noted this warranty agreement is the only warranty agreement between the parties. This agreement states the limits and association of risk between the two parties. By use of the Product and accessories the customer acknowledges understanding of this warranty and agreement and binding to the terms contained within.

**Return Policy**

- 30-day money back excluding shipping.
- A receipt dated within 30 days of purchase.
- All returns must be new, unused, and contain all original packaging, labels and accessories.
- The original product must be returned inside your shipping box.
- DJ suggests using a carrier that provides tracking and insurance. DJ is not responsible for lost shipments.

**Warranty**

Digital Juice, Inc. warrants all Digital Juice products purchased new by original owner to be free from defects in the material and workmanship under normal use for a period of 12 months from the date of purchase. Warranty is void when misuse or neglect is the cause. THIS WARRANTY IS VALID ONLY IN THE UNITED STATES AND CANADA.
Legal Indemnification

No other express warranty or guaranty, except as mentioned above, given by any person or entity with respect to Digital Juice products shall bind Digital Juice, Inc. This warranty supersedes all other warranties expressed or implied. NO IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE APPLY TO DIGITAL JUICE PRODUCTS AND ARE HEREBY DISCLAIMED.

In the event of a possible warranty claim, the defective product must be returned to Digital Juice, Inc (hereafter “Digital Juice”). If proven to be defective upon inspection, it will be exchanged for a new or comparable rebuilt product, as determined by Digital Juice and shipped back to the original purchaser. All shipping costs are the responsibility of the customer. Warranty replacement shall not extend the original warranty period of the defective Digital Juice Product.

The customer’s remedies with respect to defective Digital Juice Product and accessories shall be exclusively limited to the repair or replacement remedy as above provided and in no event shall Digital Juice be liable for loss of profits, revenues, savings, inconvenience, associated costs, expense for equipment or service, use of capital, facilities, services, storage charges, damage to property, or any other special, incidental or consequential damages caused by the use or misuse of, or inability to use, the Digital Juice Product or accessories, regardless of the legal theory on which the claim is based, and even if Digital Juice has been advised of such damages. In no event shall recovery of any kind against Digital Juice be greater in amount than the purchase price of the Digital Juice product sold by Digital Juice and causing the alleged damage.

Without limiting the foregoing, the purchaser assumes all risk and liability for loss, damage or injury to persons, animals or property arising out of use or misuse of, or inability to use, the Digital Juice Product and accessories. Digital Juice is not liable for third party claims. This limited warranty shall not extend to anyone other than the original purchaser of the Digital Juice product, or the person for whom it was purchased as a gift, and states your exclusive remedy. In no event shall Digital Juice be liable for incidental or consequential damages to the full extent such may be disclaimed by law.

Unless otherwise noted this warranty agreement is the only warranty agreement between the parties. This agreement states the limits and association of risk between the two parties. By use of the Product and accessories the customer acknowledges understanding of this warranty and agreement and binding to the terms contained within.
